# GoTo Seat

The GoTo Seat is a lightweight, portable, postural support seat for children with special needs. A GoTo makes daily tasks easier, and means kids don't need to miss out. It's a little piece of independence that lets kids see the world from a new perspective and feel like they're at the heart of the action.

## SUPPORTIVE

Reassuringly supportive and surprisingly lightweight, the new GoTo Seat is great for kids with mild-to-moderate postural needs, providing your family with more options wherever you decide to go. The laterals move high, low, wide or narrow to give a reassuring 'hug', while the head support slides up and down to the ideal height. It keeps kids happy, safe and comfy.

## COLOUR YOUR GOTO

Your child has a unique personality and unique abilities, their GoTo Seat reflects that. Choose their favourite colours, size, and any accessories they might need. You can purchase additional covers in different colours.

Orange &  
Yellow

Purple &  
Pink

Light blue &  
Dark blue

Red & Grey  
Vynal

Families worldwide use their GoTo seats in shopping trolleys, swings, planes, trikes, dining tables and so much more. A GoTo Seat makes your daily tasks easier and keeps your little one involved.

### LIGHTWEIGHT & PORTABLE

This lightweight, portable seat is perfect for taking out and about. It folds completely flat, making it suitable for travelling and can be easily stored for it's next use.

### FLOORSITTER

Attach the Floorsitter to your GoTo Seat to use it on any flat and stable surface. This optional accessory puts your youngster at the heart of the fun, letting them play on the floor with pals, enjoy picnics in the park and sit wherever suits them. Our new and improved version has 26 recline positions, from upright (106°) to right back (140°). It's ideal for finding the exact level of support your little one needs for playtime or a power nap. You might recognise this Floorsitter if you have a Splashy - it's the same design. This is great because it means you can use the same Floorsitter for both Splashy and the GoTo Seat.

### HEAD SUPPORT

Standard or Advanced Headrest? Head control varies for every child, so the new GoTo Seat gives you more options. Pick a standard headrest for simple contoured comfort or - if your child needs more help with their head control - you might choose the advanced headrest, which offers more sculpted support.

### GOTO SEAT VINYL

Promoting inclusion and participation in everyday life, GoTo's new wipe-clean vinyl cover set make it perfect for nursery, school, therapy and busy homes. Between spillages, dropped snacks, messy play and sticky hands - we know your GoTo can get it pretty tough! GoTo Vinyl makes cleaning your GoTo Seat even easier. You still get all of the benefits of our GoTo seat, with the added bonus of a water resistant, durable, wipe clean material that is soft to touch and in a vibrant new colour too!

### GOTO PRESSURE RELIEF CUSHION

The GoTo Pressure Relief Cushion has been designed to provide your child with pressure relieving comfort as well as additional postural support and pelvic stability. The memory foam is scientifically-proven to distribute your child's weight evenly, so they can play (and benefit) even longer. It's made up of a combination of memory and support foams which provide moderate pressure relief and improved pressure distribution. The Cushion and Roll can be used together or seperately to achieve a variety of support and relief options. Check out our Pressure Relief Cushion guide for more information.
