Second Spine

The Baffin features a built in spine system which can move and twist to mimic an actual spine. This means that the baffin can be adjsuted and custom molded to fit the users bodyshape perfectly.

Thanks to the innovative system of built-in spine, side supports and pelvis correction, Baffin neoSIT RS is a perfect device for therapists. Thanks to its simplicity, it can be used at rehabilitation centres and at home to continue the therapy. Spinal support along the whole back line helps to reduce pressure on a single vertebra. Baffin neoSIT RS establishes a correct sitting position. The patient equipped with the device may take part in educational activities, occupational therapy and in play. It facilitates cognitive functions and activates the child.

Support

Enable correction of postural defects through proper setting of the user's pelvis and spine.

Customise

Baffin has a range of accessories to choose from so it can be configuted and customised to suit each and every user.

Key Features

- Provides postural defects correction – allows to set the child's spine and pelvis correctly
- Great ability to fit to user's anatomical shape
- Innovative construction of back support imitating human spine
- Light and compact construction allowing to take sitting or reclining position
- Change of settings with easily accessible knobs
- The seat 'grows' with its user – it ensures long usage without the need to change the device
- System of comfortable and independently adjustable armrests
- Safe and anti-allergy upholstery complying with Öko-Tex standards
- Flexible configuration of the seat depending on the needs – basic version with the wide range of additional options (footrest, vest, headrest, arm supports)

Size	Seat height	Seat depth	Seat width	Tilt	Back height	Back angle	Base length	Base width	Max user weight
Small	37–72cm	16–31cm	15–30cm	10°–30°	42cm	–5 – 25°	77–87cm	63–68cm	60kg
Medium	37–72cm	20–31cm	15–30cm	10°–30°	50cm	–5 – 25°	77–87cm	63–68cm	60kg
Large	37–72cm	27–40cm	20–32cm	10°–30°	85cm	–5 – 25°	77–87cm	63–68cm	60kg
