

Everyday Adventures in Style...

WeGo is a stylish pushchair designed for kids with additional needs. It's as light-weight, portable and snazzy-looking as any typical pushchair. But it has some hidden surprises.

First, you can clip your GoTo into it. So your little one gets all that GoTo support and comfort they love, but now they get it going around parks, shops and anywhere. It even reclines up to 140 degrees for napping or changing. It also comes with lots of great accessories as standard - like a hood, foot muff, rain cover and basket!

Don't need postural support? That's okay too. Without the GoTo Seat, it still supports kids with mobility issues up to 30kg, way more than most pushchairs.

The Benefits of WeGo

Taking Part

This is what WeGo is really all about – the chance to get involved in more of the things everyone else is doing. It'll mean more play dates. New parks to visit. And a whole bunch of adventures.

Recline

It reclines to 140°, so your child can lie back for a little snooze or to be changed and they'll still have the support of the GoTo Seat.

Family Freedom

WeGo and GoTo are the dream team. They won't let poor access or facilities get in your way. If a standard pushchair can go, you're going too. And they let your kiddo sit, play, nap and get changed wherever they want.

Support

WeGo takes all the benefits of the GoTo Seat on the road. It works with both GoTo sizes, so your child gets that same great head and lateral support, and you'll know they're comfy and happy wherever you go exploring.

No more heavy-lifting

It's as light as a typical pushchair. You can lift it, fold it, and pop it into the back of most cars. So you won't need to rely on bulky wheelchairs so much, and your back will thank you.

GoTo Attachment

It's really easy to get your GoTo Seat in and out of the WeGo. Just set it in, attach the clips, and you're ready to go.

Accessories

WeGo comes with a full accessory pack, including a sun canopy, rain cover, cup holder, mosquito net and foot muff. Pretty cool.

Footprint length (collapsed)	Footprint height (collapsed)	Seat depth	Seat height	Seat width	Footrest	Weight	Weight with Goto seat	Max user weight
116cm	38cm	26cm	50cm	35cm	25-33cm	11kg	13kg	30kg
