

Zippie TS

The premier folding paediatric TIS chair:

The Zippie TS is the premier folding paediatric tilt-in space chair, available in either a folding or rigid style frame.

The Zippie TS has built-in frame growth with the widest variety of options and is able to accept many seating and positioning solutions.

The Zippie TS also comes with the True Fit Program, a complete growth package for free.

Tilt-in-Space

The Zippie TS has a Tilt-in-space of up to 45°. Also available with Foot Release Tilt Actuator, which eliminates exposed cables

Growth Capabilities

Grow with the chair frame as the child's needs change. The Zippie TS has the ability to grow in both seat depth and width

Folding and Rigid Frame Options

Optional Folding Frame is a lightweight welded frame construction which allows the frame to compress for transport.

Seat Width	Seat Depth	Front Seat Height	Rear Seat Height	Tilt In Space	Backrest Height	Backrest Angle	Lower Leg Length	Maximum User Weight	Total Weight
10-18"	13-20"	15.5 - 20"	15.5 - 20"	45°	16-26"	85°-120°	6-19"	75kg	13.2kg
